

## Installation

Tuesday, February 10, 2026 3:14 PM

Software change hota h fir kya kroge ?

Code apke machine me working h but kisi aur me ni chal rha h ? -- is it right ?

Open Source

Python -- why it is named python ?

Before installation make sure you should have this -- Python312 - folder --- Ctrl + Shift +N == where should I create it ?

Add python.exe to the path. -->

py -m ensurepip --upgrade
